

WOMEN'S CLINIC
& FAMILY COUNSELING CENTER

FACT SHEET
FUNDRAISER: "POKER NIGHT 2010"
AND SILENT AUCTION

Because We Don't Gamble With Your Health Care

Event: Women's Clinic & Family Counseling Center's Annual Fundraiser
"Poker Night, 2010" and Silent Auction
Friday, March 26, 2010, 7:00 pm

CASH PRIZES to the top 6 winners. Biggest jackpot: \$2000
Food by FATBURGER, No Host Bar, Munchies, Great Silent
Auction Items!

Where: Sony Pictures Plaza – Atrium, Culver City

Why: 2009 was a fiscally difficult year for individuals and companies. But we're all hopeful for a better 2010 and we need to continue to reach out and help one another. This is a great opportunity to start 2010 on a positive note by contributing to your community.

Mission Statement: Women's Clinic & Family Counseling Center is committed to providing quality, affordable health care in a safe, nurturing environment to improve the physical and psychological well-being of women, men and adolescents. We provide these services free of judgment.

Core Functions: Free and low cost primary GYN care, family planning, cancer screening and infection testing for women, men, and teens; low cost mental health counseling for all.

Women's Clinic has been determined by the Internal Revenue Service to be tax-exempt under Section 501(c) (3) of the United

(More)

Committed to providing quality, affordable (free or low-cost) health care in a safe, nurturing environment to improve the physical and psychological well-being of women, men and adolescents. All services are provided free of judgment.

States Internal Revenue Code. All contributions are tax deductible to the fullest extent allowed by law.

We provide support for the many in our community who do not have insurance coverage and access to quality health care. Many of the individuals we come in contact with every day are not provided with health insurance coverage through their employment. They are vital, productive members of our society and economic picture, yet often find themselves without basic Health services. It is a proven fact that many of our disease issues today can be treated effectively and inexpensively, if detected early. Basic screenings can prevent the higher costs of emergency and radical treatment. We can enjoy a healthier society through prevention and general care if we make access available and easy to find.

Help us spread the word. With more and more individuals unemployed, our small fees for services and donations have dropped dramatically, whereas our cost of services provided is going up. You can help and you can make a huge difference.

Testimonials:

“I like how I’m treated here.” When a patient says that you have to wonder how they’re being treated elsewhere. The fact is that they are often treated like 2nd class citizens because they have no health insurance. That’s discrimination, and it doesn’t happen here.

“I feel safe here.” In a world rife with war, domestic and community violence, an uncertain economy and job availability, feeling safe, even for a short period of time, becomes a very big deal in someone’s life.

Self-esteem and safety play a big role in how we see ourselves in our environment and community. Mental health is an integral part of the whole person, and we believe strongly in nurturing and treating both the mind and the body.

Become our partner in wellness – in caring – in teaching and leading our community toward a better tomorrow. Visit [www.womens-clinic.org/donation form](http://www.womens-clinic.org/donation_form).
